

NOTICE TO MARINERS

NO 16 OF 2012

Approaches to Cardiff – Admiralty Chart 1182

CARDIFF BAY BARRAGE

DREDGING AND TEMPORARY BUOY RELOCATION

SEAWARD APPROACH CHANNEL, OUTER HARBOUR

Beginning on or around Friday 17th July 2012, for approximately 4 weeks, the dredging vessel MV *Sospan Dau* and support vessel MV *Tioga B* will be carrying out dredging works in Cardiff Bay Barrage Outer Harbour and the approach channel.

The vessels will display lights and shapes in accordance with the International Regulations for the Prevention of Collisions at Sea and will maintain a listening watch on VHF Channels 16, 18 and 68.

On or around Friday 13th July, prior to the commencement of dredging, the Preferred Channel Marker Buoy (RGR) and the outer Port Hand Lateral marking the Outer Harbour approach channel will be moved approximately 20 metres out from their normal positions on the edge of the channel. The two inner lateral marks will be removed for maintenance. All other static aids to navigation marking the approach channel will remain operational.

Vessels wishing to enter or leave Cardiff Bay should contact Barrage Control on VHF Channel 18 and await instructions before entering the Outer Harbour. Vessels should also navigate with caution in the approach channel for the duration of the dredging works and whilst the buoyage is off station.
