

NOTICE TO MARINERS

NO 5 OF 2016

Approaches to Cardiff – Admiralty Chart 1182

DREDGING WORKS IN CARDIFF BAY BARRAGE OUTER HARBOUR AND APPROACH CHANNEL

No 01 – Notification of delay in start date - Dredging works in Cardiff Bay Barrage Outer Harbour and approach channel

Mariners are advised that dredging works in Cardiff Bay Barrage Outer Harbour and approach channel have been delayed and will now commence on or around the 14th of January 2016.

Mariners are also advised that the outer Port Hand Lateral mark and the Preferred Channel Marker Buoy (RGR) have been moved approximately 40 metres out from their normal positions on the edge of the channel. The two inner lateral marks have been removed for maintenance. All other static aids to navigation marking the approach channel remain operational.

Dredging is expected to take approximately 3 weeks and the dredging vessel MV *Sospan Dau* and support vessel MV *Kamsar* will be carrying out the dredging works. The vessels will display lights and shapes in accordance with the International Regulations for the Prevention of Collisions at Sea and will maintain a listening watch on VHF Channels 16, 18 and 68. Mariners are requested to give both these vessels a wide berth.

Vessels wishing to enter or leave Cardiff Bay should contact Barrage Control on VHF Channel 18 and await instructions before entering the Outer Harbour.

Vessels should also navigate with caution in the approach channel for the duration of the dredging works and whilst the buoyage is off station.

Mariners are reminded that CCTV is in operation at the Barrage for operational and health and safety reasons. All CCTV images and VHF transmissions are recorded.
