

# Associated British Ports South Wales

## NOTICE TO MARINERS.

NO 9 of 2022

### Newport Dock Maximum Dock Water Draft.

Until further notice the maximum draft in Newport Dock will be 10.0m. It is expected this will be reviewed in June following a planned dredging campaign.

The above remains at all times subject to existing tidal parameters based on the predicted tide heights and advertised stemming allowances and also any existing and advertised individual and named berth maximum draft parameters that are already less than 10m. Details are published in the Newport acceptance tables on the South Wales Ports website.

Please contact Cardiff LPS if any clarification needed and in any case to obtain usual marine acceptance for larger vessels.
