

NOTICE TO PORT USERS AND TENANTS

SOUTH WALES PORTS RAIL CROSSINGS

You may have noticed significant additional rail movements across our ports, especially in Newport.

As a reminder to all port users can I please ask that additional care is taken on port roads especially in areas with rail crossing points. Please adhere to speed limits and respect any rail crossing warning lights and signage in these areas.

The rail movements are accompanied by a rail operator representative and their instructions to traffic should not be challenged.

Many thanks for your vigilance and co-operation.

Craig Christoforato, Operations Manager South Wales
